## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) submitted on 5/6/04 has been considered by the examiner.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Dower (US 6,059,058 A).

Dower discloses a modular vehicle comprising a lower chassis 200 and an upper body 100, said lower chassis having at least three wheels 205, a steering system 300, a braking system 410,440, a by-wire energy conversion system 545,555, an electrical connection, and transducer 525 operatively connected to at least the energy conversion system, wherein said electrical connection connects the electrical components of the body to the electrical components of the chassis and is inherently at or above the chassis and at or below the body, as shown in figure 11 and recited in column 9, lines 38-45 and column 11, line 20-column 12, line 61.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bonfilio et al., Cudden, Pugh, Simmons, Riemer et al., Kim, Murray et al., Bonnville, Rice, Durand, and Rasmussen all disclose by-wire vehicles and body-to-chassis connections of interest.
